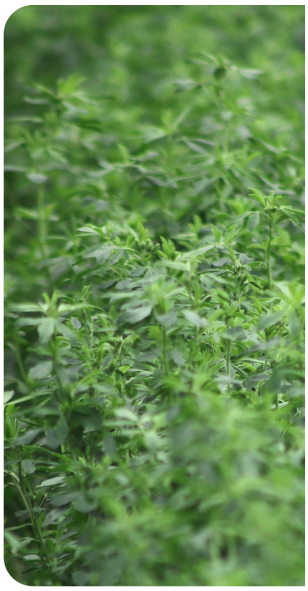
FF 54Q30-N303

Forage Mixes & Blends

SEEDS & SCIENCE



Description

FF 54Q30-N303 is a premium forage blend designed to deliver exceptional yield potential and forage quality. This variety maintains outstanding yields throughout the life of the stand, making it an ideal choice for producers seeking high-performing forage solutions. The mix components make FF 54Q30-N303 have wonderful early-season vigor, improved palatability, and versatility for hay or pasture applications. This alfalfa-timothy mix combines superior disease resistance, high forage quality, and excellent yield potential, making FF 54Q30-N303 a reliable and productive choice for livestock producers.

Contains
90% 54Q30 Alfalfa
10% Richmond Timothy
